

Programming in HTML5, CSS3, and JavaScript

Setup Instructions

Base requirements for each machine

- At least 4GB RAM, more if possible
- Disk space, not an issue really
- Internet connectivity

- Windows 10 or Windows 8.1
- IIS 8
- Visual Studio 2015 Community Edition
- Various browsers (e.g. Chrome, IE11, Safari)

Code / labdocs setup

1. Unzip **html5-css3-js-course.zip** onto **C:** on each machine (creates folder named **html5-css3-js-course-master**).
